COMMSBOX

Satellite connectivity in a box

BE PREPARED. RESPOND FASTER.

In emergencies and disaster situations, communication is crucial to ensuring a rapid and coordinated response. However when ground infrastructure is damaged or does not offer sufficient coverage, recovery operations are left vulnerable.

Specifically designed for civil defence, police and not-for-profit organisations, Kacific CommsBox offers an all-inclusive technology solution to quickly re-establish connectivity and communications.

COMMSBOX

Kacific CommsBox is a turnkey solution that can be instantly activated to quickly establish connectivity. This box can be stored at remote sites or even airdropped into the emergency zones. The satellite dish inside connects to our powerful satellite, which offers widespread coverage including islands, mountainous regions and other remote areas.

EACH KACIFIC COMMSBOX INCLUDES

- Small, self-installing satellite dish in a self-contained case
- Solar-power energy pack
- User tablets for customer-friendly operation
- Preconfigured and connected modem and satellite electronics
- WiFi set up
- A sealed, shock-resistant, fire-resistant, buoyant and transportable all-inclusive container
